

SINKING:

[Verse 1]

I hope you're sleeping
While I'm lying here awake
'Cause I've got this white noise in my head
That I can't take

How many days
'Til the next time I can see you?
'Cause I don't think that you realize what I would do
For me to be with you

[Chorus]

What I would do
For me to be with you
When in a place that doesn't cost a dime
To suddenly get lost in time

What I would have done
Before you say we had a good run
I'd spend every minute with you, my dear
Until we both run out of years

[Verse 2:]

When you left today
I told myself that you'd just gone away
So I'm waiting here
There's no way that you could just disappear

But you're not here
(you're not here)
And I'm left to face my greatest fear that
There's nothing I could do
But forget the memories of me and you
(won't forget you)

[Chorus]

What I would do
For me to be with you
When in a place that doesn't cost a dime
To suddenly get lost in time

What I would have done
Before you say we had a good run
I'd spend every minute with you, my dear
Until we both run out of years
